NSP Revenue for January Reached NT\$2,424 million, setting a record high for the past 35 months since March 2011

Neo Solar Power Corporation (3576 TT) ("NSP", or "the Company"), a world-class leading producer of high quality solar cells in Hsinchu, Taiwan, today announced that January revenues reached NT\$ 2,424 million, setting a record high for the past 35 months with 195.43% YoY growth.

The continuous increase of revenues in January mainly results from strong market demand, slightly rising ASP of solar cell, and high capacity utilization rate.

Due to the rising market demand for high efficiency products, NSP continuously devotes to R&D and develops new products by means of its strong semiconductor industry experience and vast solar device physics expertise, which will help NSP to maintain the long-term leadership in product efficiency and quality.
